Welcome to e-news for *NEXT*

NEXT is the resource collaborative that specializes in developing the region's fast-growth entrepreneurial sector. The mission of *NEXT* is to create a new culture of entrepreneurship in the region and dramatically increase the number and quality of fast-growth, entrepreneurial companies headquartered in our region. *NEXT* pursues three key initiatives to achieve its mission: client services to technology-based entrepreneurs; infrastructure; and voice/advocacy.

For additional information, contact Brenda Laakso at 864-239-3711.

EVENT CALENDAR

***NEXT* BP Forum "Built to Run, Built to Grow, Built to Last – Creating and Sustaining Your Business in Good Times and Bad"**. Monday, June 1, 2009 12:00 – 1:30 p.m. Greenville – Thomas Militello, Sequentus International will be our guest expert.

NEXT CEOs the opportunities and challenges facing any entrepreneurial company are often unpredictable and in many cases only achievable or preventable with great planning, attention to detail and luck. Take advantage of the opportunity to listen and learn from President and CEO Thomas Militello of Sequentus International as he leads a discussion on the best management practices and some key lessons learned for creating and sustaining your business in good times and bad.

About the Speaker – Thomas Militello, Sequentus International

Thomas Militello is the President and CEO of Sequentus International, a corporate development and consulting firm providing strategic planning, business development and operational support services for companies in the fields of computing, communications, energy, environment, material science and specialty chemicals.

While leading the Sequentus corporate and consulting practice, Mr. Militello devotes time at the University of South Carolina Columbia Technology Incubator, serving as an advisor to entrepreneurs, faculty and students beginning their business journey. Mr. Militello is also an industry advisor at his alma mater, Rochester Institute of Technology, where he serves on the Department of Mathematics academic and research program committees.

In 2005, Mr. Militello co-founded Palmetto Fuel Cell Technologies, a fuel cell component design and testing company. Today, Palmetto Fuel Cell Technologies is creating novel membrane electrode assemblies for portable fuel cells serving the military and homeland security markets. In 2003, he co-founded FuelCellSouth, a non-profit company focused on growing the hydrogen and fuel cell industry in the Southeastern United States. In 1998, Mr. Militello co-founded Conita Technologies, a voice recognition-based software as a service company, where he was Senior Vice President of Strategy and Business Development until the company's acquisition by Avaya in 2002.

At General Magic, Mr. Militello was the Director of Product Marketing for the Active Internet Division, leading the product planning and marketing strategy for mobile and intelligent agents. From 1985 to 1996, he served in multiple technology planning, product management, software development and quality assurance roles at AT&T Global Information Solutions and NCR Corporation.

An avid supporter of youth and young adult activities, Mr. Militello resides in Columbia, South Carolina where he volunteers time as an adult leader for Catholic Youth Ministry, Boy Scouts of America and Columbia United Youth Soccer. He is married to Lisa Weible Militello and they have three children.

NEXT event:

NEXT BP Forum “ IS V.C. FOR ME?” Should my company raise venture capital? What exactly is venture capital? Is there any venture capital in South Carolina? Monday, July 13, 2009. Robert Fletcher, Founder - Cotesworth, LLC will be our guest expert.

About the Speaker – Robert Fletcher, Cotesworth, LLC

Robert Fletcher is the founding partner of Cotesworth, a business development firm that he started in 2007. An experienced entrepreneur and technology business builder, he is currently engaged in creating a new, early-stage venture fund in South Carolina.

Fletcher was the youngest member of the venture fund Trelys, where he worked with seven technology companies and was responsible for the firm’s investment in Ometric Corporation. At other points in his career, Fletcher has served as CEO of robotics firm Applied Motion Systems (Vancouver, WA); as Assistant to the CEO of Mynd Corporation (acquired by Computer Sciences Corporation); and as Senior Analyst for BlueCross BlueShield of South Carolina. He began his career in his hometown of Hartsville, South Carolina, as an engineer in the Advanced Technology Development group of packaging giant Sonoco.

He holds a degree in Electrical Engineering, with emphasis in computers and psychology, from Clemson University and a Masters in Business Administration from Harvard Business School. In 2006, he was named a “20 under 40” rising leader in business by *The State* newspaper.

NEXT BP Forum “Searching for the New Knowledge Economy” Monday, September 14, 2009. Bruce Yandle, Dean Emeritus, Clemson University College of Business will be our guest expert.

NEXT CEO’s attend to learn about: Brains filled with wealth-enhancing knowledge form the capital of the future. But brains are far more mobile than machines and factory buildings. Where are they locating in the U.S.? How can we measure the location of the knowledge economy across states and cities? How is South Carolina faring as a competitor in the new knowledge economy?

About the Speaker - Bruce Yandle, Dean Emeritus, Clemson University College of Business

Bruce Yandle is Alumni Distinguished Professor of Economics Emeritus at Clemson University, and Dean Emeritus of Clemson University’s College of Business & Behavioral Science. Dr. Yandle served in Washington on two occasions, first as a senior economist on White House staff during the Ford and Carter Administrations and later as Executive Director of the Federal Trade Commission in the Reagan Administration. He is a Senior Fellow with Clemson’s Thurmond Institute and a Distinguished Adjunct Professor of Economics with George Mason University’s Mercatus Center where he lectures regularly on Capitol Hill. Dr. Yandle has been a member and chairman of South Carolina’s State Board of Economic Advisors. He is past-president of the Association of Private Enterprise Education and a trustee of Spartanburg Methodist College. He is author/coauthor of some 16 books, including *Regulation by Litigation*, just released by Yale Press. Prior to entering a career in university teaching, Dr. Yandle was in the industrial machinery business for 15 years. His quarterly *Economic Situation* newsletter on the economy is distributed by Clemson’s Strom Thurmond Institute.

NEXT PARTNER SERVICES and EVENTS

Join Immedion, eGroup and Cisco for Lunch and a Demo of vSphere 4, VMware's New Platform for Building Cloud Infrastructures, Tuesday, June 2nd 11:00 a.m. - 1:00 p.m. at Immedion

VMware vSphere is the industry's first cloud operating system, enabling customers to bring the power of cloud computing to their IT infrastructures and dramatically reduce capital and operating costs.

In collaboration with VMware, Cisco's new series of Nexus 1000V Switches "provide the same features, capabilities, and management functions that they have on traditional hardware-based switches, but now delivered with virtual machine-level granularity."

Join us at Immedion on June 2nd for a live demo of VMware vSphere 4 and learn how to leverage the power of cloud computing. RSVP to events@immedion.com

You are cordially invited to the NextStart Kick-Off Reception Monday, June 8, 2009 at 5:30 p.m.

Please join us in welcoming the 2009 NextStart Entrepreneurs to Greenville and the NextStart Program. **NEXTStart** is a summer entrepreneurial immersion program to help young entrepreneurs launch new companies through mentoring, education, and networking experiences over the 9-week program. It is a collaborative effort sponsored by Clemson University's Renaissance Center and Spiro Institute, the Greenville Chamber of Commerce, SC Launch! and the NEXT organization of regional technology entrepreneurs in Greenville, SC. In addition to business development activities, each company is receiving a seed equity investment from a private investment fund to help launch their business.

The 2009 NextStart Companies are:

Company	Founding Entrepreneurs

FastTrac® NewVenture™ FastTrac NewVenture is ground zero for anyone interested in starting a business. An education program created by entrepreneurs for entrepreneurs, FastTrac NewVenture is designed to help you evaluate and perfect your business concept. Taught by seasoned entrepreneurs in your community, FastTrac's hands-on program uses your idea as a case study, giving you an opportunity to "workshop" your venture in a safe and supportive environment. FastTrac NewVenture is a nine-module, 31.5 hour, program. The cost for the NewVenture course is \$195. Register and pay at least 2 weeks in advance to receive a \$50 discount!

FastTrac® GrowthVenture™ What do you get out of FastTrac GrowthVenture? That's easy. Control of your business and your life. Graduates of FastTrac GrowthVenture describe the program as one that encourages entrepreneurs to streamline their business processes, analyze strengths and shortcomings, and achieve more balance in their work and personal lives. By working closely with other entrepreneurs in the intensive, FastTrac GrowthVenture environment, you'll interact with a group of people with whom you can share ideas, strategies, and successes. You'll also hone business skills that you'll use to shape your business for years to come. The cost for the GrowthVenture course is \$295. Register and pay at least 2 weeks in advance to receive a \$50 discount!

FastTrac® TechVenture™ What do you get out of FastTrac TechVenture? That's easy. The tools you need to advance your technology venture to the next stage of business, whether that is seeking your last round of financing before going public, or moving beyond the start-up stage. Graduates of FastTrac TechVenture describe the program as one that encourages technology entrepreneurs to determine the economic feasibility of their business concept, reevaluate the feasibility of the technology, design a business model that matches a personal vision, and create a business plan to communicate the opportunity to investors. The cost for the TechVenture course is \$395. Register and pay at least 2 weeks in advance to receive a \$50 discount!

PRESS RELEASES

Dave & Buster's Selects Vigilix's Total Support Manager for Proactive Point of Sale Monitoring and Alerting Greenville, SC

Vigilix, a leading provider of PCI compliant point of sale support software, is pleased to announce that Dave & Buster's, Inc has implemented Vigilix's Total Support Manager as a help desk solution for proactive monitoring and alerting of their point of sale systems.

By using Vigilix's Total Support Manager Dave & Buster's internal help desk is able to proactively monitor the performance for the point of sale applications in their North American locations. Total Support Manager provides proactive monitoring and alerting for point of sale applications and the environment that it operates in allowing support technicians to quickly respond to issues that could impact financial transactions, compliancy issues or customer experience.

"POS system up time and performance is vital to our entertainment and dining establishments" says Jeff Weiss, Director of Store Systems. "Total Support Manager allows us to monitor, detect and resolve issues before they become a problem. Dave & Buster's is all about having a good time. Preventing POS system disruptions keeps everybody happy from our staff to our customers".

About Vigilix, LLC

Vigilix is the leading provider of monitoring and alerting software and remote support tools dedicated to the point-of-sale industry. As the Total POS Support Solution, Vigilix Total Support Manager (TSM)/ Virtual Technician provides real-time monitoring, alerting, and remote control through a single web based user console. Help Desk operators have real-time visibility into the exact condition of the point-of-sale systems from an enterprise level down to a specific location. Using the PCI compliant secure remote control option, Vigilix RC, technicians can respond to alerts quickly, thus preventing small issues from becoming big problems. Delivered as a software as a Service application, Vigilix does not require additional software licenses or hardware for deployment.

For more information visit www.vigilix.com, or contact the company at 866-576-2839 x 14.

About Dave & Buster's, Inc

Dave & Buster's, Inc., is a leading operator of high volume entertainment/dining complexes. Celebrating over 26 years of operations, Dave & Buster's was founded in 1982 and is one of the country's premier entertainment/dining concepts in the United States and in Canada.

IMMEDION ADDS TWO ENGINEERS

Greenville, SC (March 3, 2009) – Immedion is pleased to announce the addition of Chris McCall to the Managed Services Engineering team. McCall's placement follows three years as a Level II LAN Administrator with Reliable Automatic Sprinkler Co. and four years with Nuvox as a Data Technician. Immedion COO Rob Moser said, "The addition of Chris and the experience he gained while working in IT for the manufacturing industry will greatly help us meet the needs of our expanding client base."

McCall has lived his entire life in upstate South Carolina, in the Williamston and Pelzer areas, and attended Palmetto High School. He earned an Associate Degree in Business Administration from American Intercontinental University in 2003 and received CCNA training from New Horizons in 2006. Regarding his decision to join Immedion, Adams remarked, "I'm excited to be part of Immedion and to have the opportunity to work with such a talented group of people. It's great to have the chance to utilize my skills with the services that Immedion offers to our customers."

Immedion would also like to announce the addition of Charles Adams to their customer support team. Adams joins Immedion after two years with QS1 as a Customer Support Technician. "We are pleased to add Charles' support experience and strong customer service background to our 24x7 Network Operations Center team," said Moser. Adams attended Dorman High School in Spartanburg and later received his BS in Business Administration from USC Upstate in 2004. He went on to add a BA in Information Management Systems from USC Upstate in 2005.

FROM HOMES AND LAND TO HIGH TECH REAL ESTATE, IMMEDIION BRINGS ON SR. SALES EXECUTIVE

Greenville, SC (March 26, 2009) – Immedion is pleased to announce the addition of Dave Garner as Immedion's Senior Sales Executive. Garner joins Upstate South Carolina's only dedicated data center and managed services provider after nine years in the real estate industry. Immedion CEO, Frank Mobley said, "We are glad to have Dave as part of the Immedion team. His sales and managerial background in a variety of industries is a great foundation for the position and his upbeat outlook and proven people skills will work well with the company."

Garner was born and raised in Greenville, S.C., graduating from Eastside High School in 1988. He was a Richardson Scholar and Captain of the Tennis Team at Wofford College where he earned a BA in Finance in 1992. After working in chemical sales around the Southeast for 8 years, Garner's passion for the Upstate led him to a return to Greenville and a career in real estate. He was Marketing and Sales Director for Liberty Property Trust and Director of Real Estate/Operations Support for NuVox Communications. Garner then spent five years as one of the original principals of New Way Properties, a local real estate firm. "I've been extremely fortunate in my career, and all my positions have presented me with tremendous learning experiences and great people. Immedion is a wonderful opportunity for me to capitalize upon all of these experiences as we expand our customer base." As Senior Sales Executive, Garner will be responsible for sales strategy and execution and expanded growth for Immedion.

When asked about the new job, Garner answered, "There are a lot of technical aspects to what we do at Immedion, but our core service is essentially high tech real estate. We offer a wonderful facility where businesses can locate the lifeblood of their existence, their IT infrastructure, and they can be guaranteed that the infrastructure will operate and be protected. It's a tremendous product backed up by a group of people that emphasize a customer-first approach. It's a wonderful opportunity for me to grow and for the company to expand, and I'm truly fortunate to join the team."

IMMEDION CONGRATULATES AIDJOY AND PROJECT AMAZONAS

Greenville, SC (April 27, 2009) – The Immedion team congratulates AidJoy.org and ProjectAmazonas.org on the recent local and national publicity. Immedion is proud to provide the hosting for both nonprofit Web sites on Immedion's Fully Managed VMware Solution. Immedion's fully redundant network and power infrastructure ensures the Web sites' uptime for viewing around the world 24x7x365.

IMMEDION EXPANDS MARKETING TEAM

Greenville, SC (May 4, 2009) – Immedion is pleased to announce the addition of Don Poinsette to the company's internal marketing team. Poinsette's move to Marketing Associate follows a year as a Customer Support Technician with Immedion's 24x7 Network Operations Center (NOC). Prior to joining Immedion, Poinsette worked for three years with the Walt Disney Company in Lake Buena Vista, Florida and six years for the television industry in Los Angeles, California. Immedion Marketing & Sales Executive Rebecca Burbank said, "Don's extensive customer service and marketing background, alongside his upbeat personality, will make a great addition to the Immedion marketing team."

Raised in Greenville, South Carolina, Poinsette earned a BS in Marketing from the University of South Carolina in 1990. Regarding his promotion, Poinsette remarked, "I am excited to use my understanding of customer relations to provide insight for Immedion's marketing and sales."

IMMEDION GETS A FACELIFT

Greenville, SC (May 11, 2009) – Immedion, South Carolina's first enterprise-class dedicated data center services provider, is proud to announce the launch of its new Web site design at www.immedion.com. The new site's contemporary look, developed by Cyberwoven - a Columbia based Web development firm, makes it easier for visitors to obtain information about Immedion's data center and managed IT solutions and to learn more about the company's news and events.

"The new Web site is a valuable resource for Immedion to connect with potential customers in the Upstate and beyond," said Frank Mobley, CEO of Immedion. "We invite our current and future customers to explore the new site often to see what's new at Immedion."

IMMEDION OFFERS FULLY MANAGED VULNERABILITY MANAGEMENT SERVICES

Greenville, SC (May 27, 2009) – Immedion, through its partner StillSecure, announced a fully managed vulnerability management service for its Intelligent Managed Security Services platform. The new service is based on StillSecure's award-winning vulnerability management system, VAM®, and is the first of StillSecure's products to be offered as a managed service.

Effective vulnerability management takes into account regulatory compliance requirements as well as the threat from decreased time between the identification of a vulnerability and its exploit. When implemented as a service, vulnerability management also maximizes the efficiency of IT resources and reduces the time it takes to scan and fix network vulnerabilities.

Immedion's vulnerability management service provides fully managed scanning (using external and internal scans), identification, analysis and reporting of network vulnerabilities. Once a scan is completed, Immedion provides customers with detailed reports around compliance, remediation, and risk management. Vulnerability lifecycle status is also analyzed to generate high-level and in-depth, granular reports for auditors, managers, security staff, and system administrators.

Immedion CEO Frank Mobley stated, "We can incorporate these vulnerability management services into a layered security model for customers seeking to strengthen their security position who might not have the resources to do it in-house. Needs have changed from simply minimizing security threats to include reducing costs and meeting regulatory requirements, and through our Intelligent Managed Security Services, we are helping companies meet those needs."

Immedion's Intelligent Managed Security Services, which are SAS-70 Type II audited, help organizations lower total cost of ownership by leveraging external security experts as an extension of their staff. Managed security services include firewall, IDS/IPS, VPN, anti-spam, anti-virus, content filtering, and vulnerability management, which are all backed by a 24x7x365 Security Operations Center (SOC) staffed by certified security analysts.

About Immedion:

Immedion delivers fully redundant enterprise level data center services, minimizing critical computer system downtime caused by commercial power outages, Internet problems, or other system failures. Immedion's suite of services includes state-of-the-art co-location space, virtual server platforms, Internet and network resources, server monitoring and management, network security, and primary and backup data storage. Immedion is a 24x7x365 operation located in the Global Business Park near the International Center for Automotive Research (ICAR) campus.

LOCAL MEDIA TOUTS TRAILBLAZING PRODUCT THAT COULD SAVE LIVES

Fewer Amber and Silver Alerts in the Future Greenville, SC, May 12, 2009 — Who says you can't buy security? It costs about \$185, and it fits in the palm of your hand. Special rental programs available through several partners can give a loved one access to the same GPS technology services for only \$7.50 a day for vacations, family trips, or school events.

BigLeapGPS is the smallest, most intelligent, personal GPS location product on the market -- tied to an intuitive, easy-to-use, web portal for device location. Because the device is so small, it can be placed on your children, parents, pets, cars, bikes, or anything else you can imagine that needs to be located at a moment's notice.

A recent feature video (<http://www.foxcarolina.com/video/19406653/index.html>) on Fox Carolina News highlights BigLeapGPS as a product with the potential to make the world a safer place for both children and senior citizens.

BigLeapGPS president Joe Milam says the pain of producing a new product will be worthwhile when he gets the first phone call saying that his device saved a life.

"I'm a parent; I worry. My goal was to use today's technology to help create a little peace of mind for parents of young children," says Milam, entrepreneur, Greenville resident, and father of three. "Then I started noticing the many recent Silver Alerts (when senior citizens go missing from their caregivers), and I knew that BigLeapGPS could be beneficial for those people, too. There are few things more terrifying than a loved one -- young or old -- going missing. BigLeapGPS and their vertical focused partners can put a stop to that fear."

BigLeapGPS can be contacted at www.bigleapgps.com. Based on your GPS needs, BigLeapGPS will connect you with the best partner to work with.
