

## Immedion Hires McCall as Network Engineer

**GREENVILLE, S.C.** (DEC, 2011) Immedion LLC, a South Carolina based provider of data center and managed services, announced this week the hiring of Hugh McCall as a Network Engineer. He is joining Immedion's technical staff. Hugh is a Cisco Certified Network Associate and has extensive IP and Transport experience.

McCall joins the Immedion team from Charter Communications where he served as a Carrier Network Engineer for about five years. Hugh's education, combined with his experience, make him an excellent fit for the requirements of the role.

"We are pleased to have Hugh join our staff," shares Immedion COO, Rob Moser. "At the rate we've been growing it has been extremely important to hire the right people to both meet the needs of our customers and fit the culture we've established here at Immedion and Hugh is a great fit on both levels."

### About Immedion

Immedion's objective is to keep customer business-critical data and applications available 100% of the time 24x7x365. They accomplish this by coupling their world-class data center facilities and a strategic array of managed services developed to deliver the highest degree of reliability at a very competitive price. Since 2007, Immedion has been delivering fully redundant power, Internet bandwidth, cooling and humidity control to businesses across the state of SC and western NC. Customers leverage the Immedion enterprise level data centers to minimize critical computer system downtime caused by commercial power outages, Internet problems, or other system failures. Immedion is headquartered in Greenville, SC and has office in Columbia, Asheville, NC and they are currently building a fourth facility in Charleston, SC.
